THE MOST PREMIUM
SCHOOL IN UTTER PRADESH

About Asian International School

Asian International School is an educational institution committed to delivering high-quality, holistic education with a global outlook. It blends modern teaching methods with character development, nurturing students to be responsible, creative, and socially aware individuals. With modern infrastructure, a variety of co-curricular activities, and experienced faculty, the school's mission is to help every student reach their potential academically, emotionally, and socially.

Academic Knowledge

Contextual knowledge of subjects such as Languages, Mathematics, Sciences, Humanities and Commerce. These are based on the CBSE curriculum and are focused at preparing students for life.

Personal Development

For each student, there is a personalised component to develop their habits and skills around health and fitness, performing arts, time management and reading habits.

World Studies | World Studies takes the learning beyond the four walls of the classrooms and the boundaries of the subjects. Learners engage themselves in the Theme for the Month and research, debate, discuss and understand the world through many lenses to develop a more meaningful understanding of how the world functions.

21ST Century Skills

The 4Cs of the 21st century - The skills of Communication, Creativity, Critical Thinking and Collaboration required in day-to-day work environment to be successful and competitive are inculcated through explorations and experiences.

Communication Skills

Learners are encouraged to question, share and express their ideas and views. Ideas are shared and discussed and analysed before reaching a conclusion.

Creativity

Creativity is not taught but is inherent in all. It is important to provide space to the learners to explore their inherent talents and to nurture it further and that is what our classrooms do.

Critical Thinking

The learners are put in situations that enable them to analyse, evaluate, explain and restructure their thinking. They learn to build perspectives and different viewpoints.

Collaboration Skills

Learners are assigned tasks that are worked through projects and group work. Teamwork is encouraged while the students are also developed into independent learners.

Aims of Curriculum

Students will be enabled to :

- Achieve cognitive, affective and psychomotor excellence.
- Enhance self-awareness and explore innate potential.
- Strengthen knowledge and attitude related to livelihood skills.
- Attain mastery over laid down competencies.
- Develop the ability to appreciate art and show case talents.
- Imbibe 21st century learning, literacy and life skills.
- Promote physical fitness, health and well-being.
- Inculcate values and foster cultural learning.
- Promote arts integrated learning.

NURTURING WORLD CHAMPIONS

SPORTS AT ASIAN INTERNATIONAL SCHOOL

Asian International School believes that Sports is a great way for children to learn the essential Life Skills that they require in life, such as teamwork and co-operation. Physical Activity stimulates growth and leads to improved physical and emotional health.

The School has tie-ups with top notch International Sports Programmes as LaLiga, India on Track and NBA providing the world class framework of sports curriculum.

Asian International School promotes physical activity as early as the Pre-Nursery grades through the Kid-Fit Program (a physical education curriculum for children aged 2-5). The program is designed by fitness professionals to address the needs of growing children in Pre-Primary Section. The 'Get Athletic' Sports program for Primary Grades is based on the fact that athletics is the foundation for all sports. This

program allows a child to explore his/ her full potential and attain maximum physical strength.

The impressive indoor and outdoor sports facilities available at Asian International School ensure acquisition of skill and ability for comprehensive growth of the children. At the Signature School, more than 60,000 sq.ft. of space is dedicated to various indoor sports. The facilities provided include

- Indoor Swimming Pool
- Billiard Room
- Shooting Range
- Gymnasium (Multi Sports Room)
- Two Squash Courts
- International Table Tennis Room
- Three Indoor Badminton Courts
- Indoor Basketball Court

TECHNOLOGY AS AN ENABLER FOR LEARNING

"Rest not till you reach"- we stand firm by the motto of the school and strive to provide the best infrastructure to the students at The Asian International School. The process of modernisation in such dynamic times is never ending, yet we keep abreast with the latest technologies and unhesitatingly incorporate the latest tech like smart boards, inclusion of multimedia, modeled and hands on methods of teaching . The classroom are designed to be naturally well lit with huge windows in conjunction with artificial lights. They are spacious and offer a clutter free environment because long after the students leave they will, but miss the classrooms. The architecture of the building is such that there is a good channel system of airflow through all corridors and classrooms All classrooms are well equipped with user / student furniture offering and air-conditioner, offering the comfort of home.
